

SOUND-TEC TILE FLOATING FLOOR COLLECTION

URBAN
SURFACES

Rock Solid, Long Lasting Stone Looks.

Sound-Tec Tile takes a “best of both worlds” approach, providing the look of stone at a fraction of the cost. Four new options give this line a full range of colors and patterns to choose from.

30% Faster Installation

With the all new RapidLock Technology Clip System, Sound-Tec flooring is easier to install than ever before.

Pet Friendly

Messes stay on the surface and do not penetrate or go under the floor.

Sound Resistant

Attached pad underlayment reduces sound transfer and provides walking comfort.

10 Curated Designer Colors

A focused selection of premium colors and textures to ensure the perfect floor for your designer vision.

Transitions & Moldings

Sound-Tec has an impressive selection of moldings in matching colors to provide a clean finish to every floor. Transition between flooring types and heights. Finish to any wall, cabinet, fixture or edge.

CERTIFIED BY
SCS Global Services

Build Responsibly

All products have been independently certified by SCS to comply with the volatile organic compound emissions criteria of the California Sections 01350 standard. Any product that has met these stringent standards is a product that will contribute to good IAQ.

Electra - 9609

Features the elegant look of fine marble. Unique subtle veining adds character to any space.

Solstice - 9606

The stillness present within this look provides a space in which one can truly be lost in the moment.

Luna - 9605

To gaze into the night sky and wonder is to discover the subtle features of this modern shade.

Astella - 9608

Features an earthy shade with low-contrast hues, which spread understated style to any room.

Vega - 9610

Grey is in. Vega fits nicely in a modern interior, with a classy vibe and makes the room look larger.

Vega - 9610

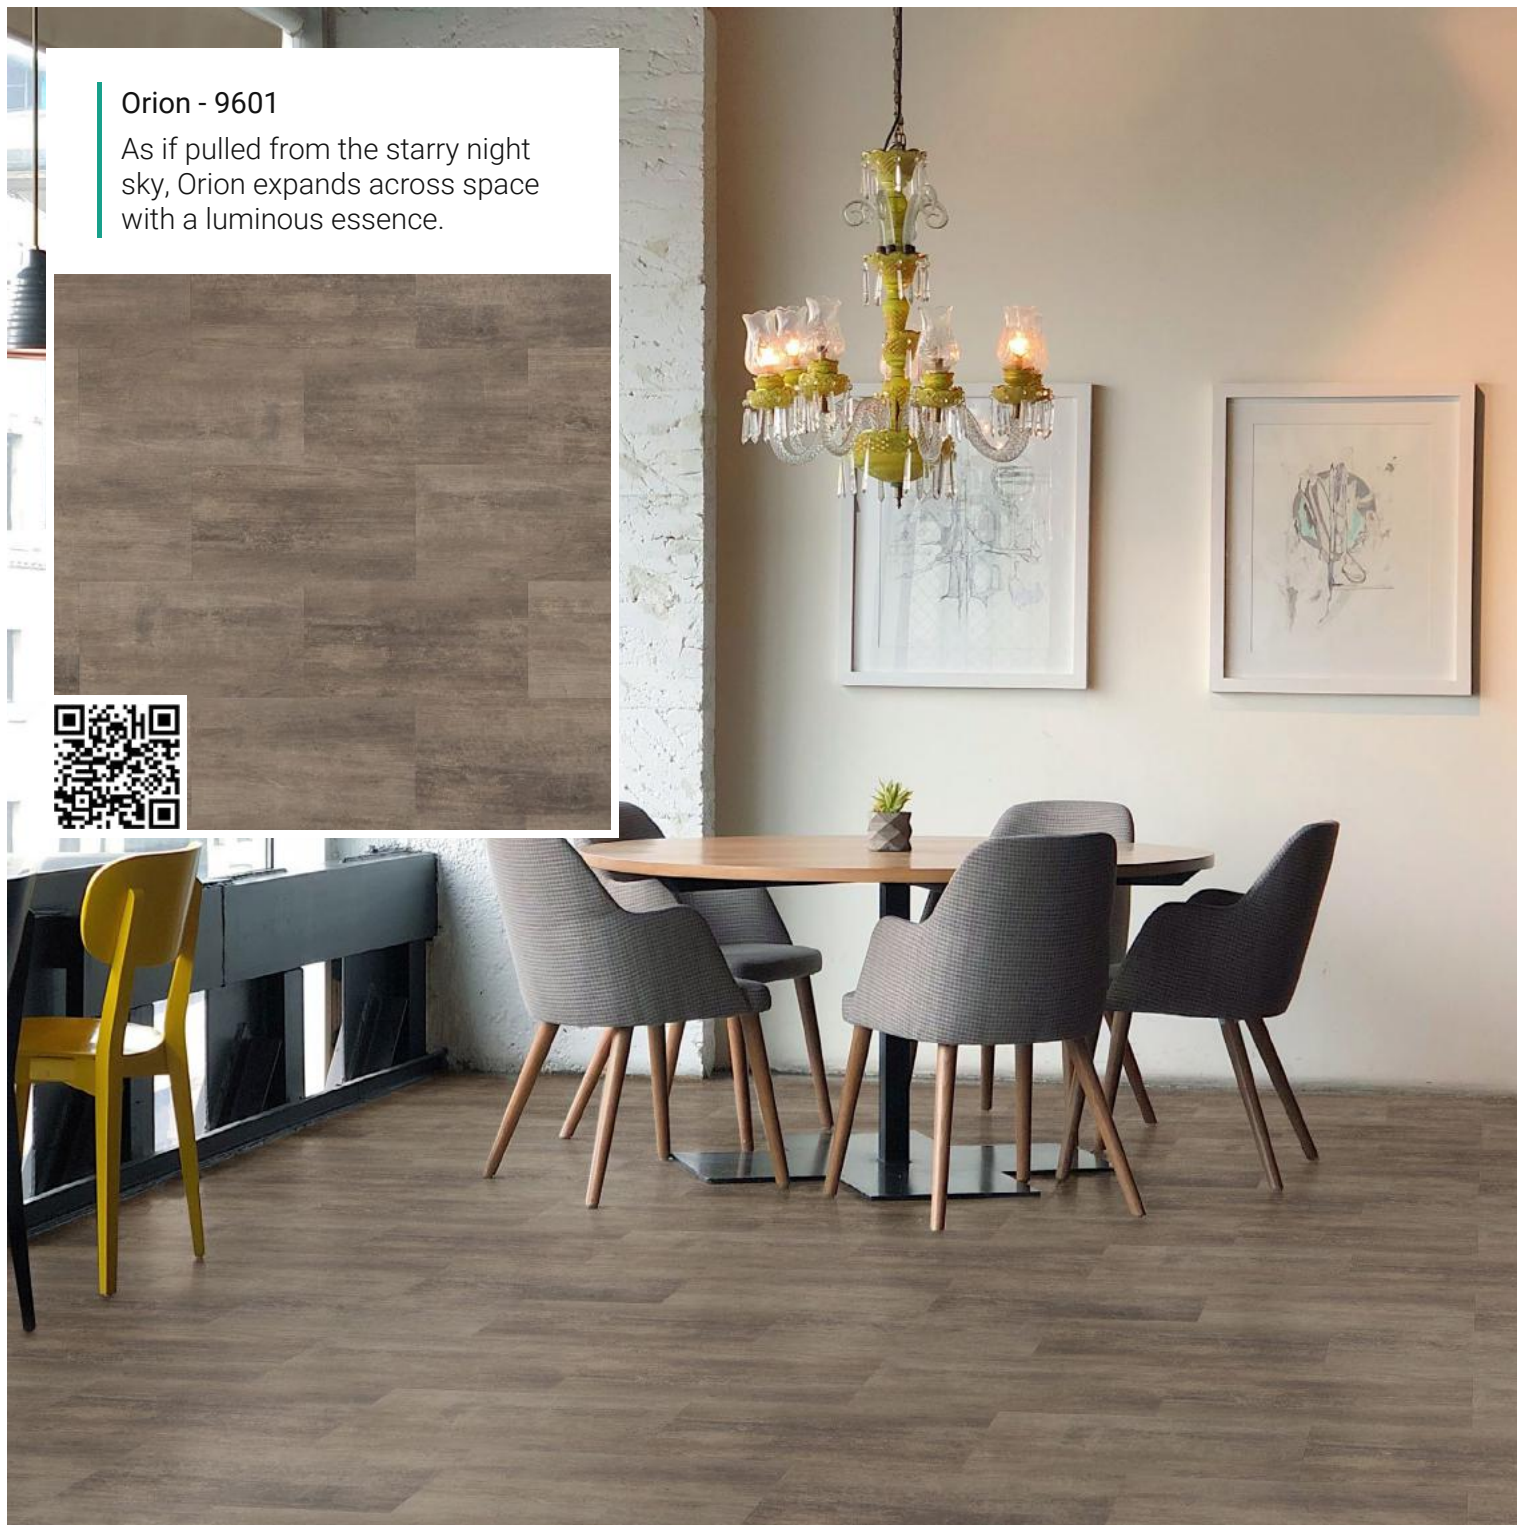

Nova - 9607

It's trending. Nova's light grey hue creates a modern vibe, and a sense of calm.

Orion - 9601

As if pulled from the starry night sky, Orion expands across space with a luminous essence.

Orion - 9601

Meteor - 9604

Meteor - 9604

Meteor's unique distinctive color combinations establish a look that is otherworldly.

Onyx - 9602

This serene look is curated to mirror the style of stone that has been weathered by rain and water.

Onyx - 9602

Obsidian - 9603

Obsidian - 9603

Obsidian's dark characteristics combine professionalism and modern style in one.

RAPIDLOCK

TECHNOLOGY

CUT DOWN INSTALLATION TIME BY 30%

Installing Sound-Tec and Studio 12 is faster and easier than ever before, thanks to its innovative Rapidlock clip system. Rapidlock ensures a reliable, water-tight lock that lasts. Designed to be installed with just a click, renovating just became a whole lot easier.

1 | ANGLE

Start by engaging the plank on the long side at a 45° angle.

2 | SLIDE

Slide the plank to the left until the sides align.

3 | DROP

Gently drop the plank to engage the locking system.

4 | SECURE

To secure the locking system and make flush, gently tap with a soft-faced hammer.

Check out UrbanSurfaces.com for the full guide on Rapidlock.

BEAUTY IN THE DETAILS

Easily transition the flooring to a variety of different settings.

The different molding options deliver several variations, when fitting the floor to any room, and any situation. Pick the best molding for your desired look.

CREATE INSPIRING SPACES.

Why hard surface flooring?

Hard surface floors are easy to clean and maintain because they provide a one-dimensional surface that doesn't absorb odors, spills, dust, or soil. They also don't retain moisture, which can lead to microorganisms such as dust mites and mold.

What are you breathing?

Research by the RFCI shows that on average a person will spend 90% of their life indoors. Whether it be in your working environment, your home, or sitting in a movie theater, you will spend a majority of your time inside. When this is realized, you may want to know how healthy the air quality is, and rightly so. A recent study done by the Environmental Protection Agency (EPA) found that indoor air was deemed two to five times more harmful than outdoor air. This is due to many harmful pollutants including radon, mold, and carbon dioxide found indoors.

Healthy air contributes to better learning in schools, improved productivity in offices, and more comfortable homes. Poor indoor air quality (IAQ) can be a factor in a variety of health problems, such as headaches, dizziness, and more serious long-term effects.

BUILD RESPONSIBLY.

Why FloorScore?

When it comes to indoor air quality, a primary concern is the emission level of specific volatile organic compounds (VOCs). FloorScore® IAQ Certification means that a flooring product is independently certified by SCS Global Services to comply with the volatile organic compound emissions criteria of the California Section 01350 Program.

Hundreds of resilient flooring materials and their adhesives bear the FloorScore® seal. This seal tells you that the products have been independently certified by SCS to comply with the volatile organic compound emissions criteria of the California Section 01350 standard. Any product that has met these stringent standards is a product that will contribute to good IAQ.

FloorScore Requirements

To earn the FloorScore® seal, a flooring product must satisfy the requirements of the SCS-EC-10.2-2007 Environmental Certification Program – Indoor Air Quality Performance.

Which Includes:

- Testing demonstrating compliance with emission concentrations for listed VOCs under California Section 01350
- Manufacturing facility on-site audits and yearly surveillance audits
- Annual product re-testing
- Product record keeping
- A documented quality control plan

SETTING THE TONE FOR THE STEPS AHEAD.
